

BIG POWER. NO-POP.

Calibers Available
.177 | .20 | .22 | .25

WHISPER QUIET. CONDOR POWER. MADE IN TEXAS.

The Condor SS-SL Sound-Loc[®] is the ultra-quiet evolution of the CondorSS platform — combining the classic CondorSS's internally suppressed shrouded barrel with the external Sound-Loc[®] moderator. The result is a double-suppressed production rifle that delivers amazingly quiet field performance while maintaining the CondorSS's accuracy, balance, and power.

In the field you'll notice the smooth Condor action and almost zero discharge sound— everything needed for stealthy pest control, small-game hunting, or backyard plinking without disturbing the neighbors.**

CondorSS-SL

with ((SOUND-LOC))

What is Sound-Loc[®]?

Sound-Loc is a series of industrial sound absorbing baffles that capture and disperse air for a quieter shot without losing power.

SPECIFICATIONS:

Air Tank Volume: 500cc
Barrel: 18 Inches, 12mm Lothar Walter
Caliber(s): .177, .20, .22, .25
Energy: Up To 110 Foot Pounds*
Grip: Ambi
Length: 44.25 Inches
Max Fill Pressure: 3625 PSI (250 BAR)
Moderators: External: Sound-Loc[®] Moderator
Integral: CondorSS Barrel Shroud

Double-Suppressed

CondorSS-SL features an externally attached Sound-Loc[®] Moderator plus the original CondorSS Barrel Shroud for a true no-pop system.

Rails: 11mm Dovetail
Safety: Automatic on Cocking
Sights: Open or Optical May be Used
Trigger: 2 Stage, Adjustable for position
Twist: 1:17.7
Velocity: 1200+ Feet Per Second*
Warranty: Limited Lifetime
Weight: 6.6 Lbs
Proudly Made in Texas, USA

*Ft-lbs will vary based on caliber & grain wt of projectile used.

CONDOR SL SOUND-LOC[®] KEY BENEFITS

Double suppression — Integrated shroud + External Sound-Loc[®] moderator with patented sound absorbing baffle system yields an amazingly quiet shot signature.

Power & accuracy preserved — Suppression is engineered to work with the CondorSS barrel dynamics to produce small groups and repeatable performance.

Condor reliability — All the build quality, accuracy, and modularity of the Condor platform.

Made for versatility — Ideal for pest control, varminting, backyard range work, and quiet target practice.
